

PETERSBURG.

HUSTINGS' COURT-INDICTMENTS-CONVICTED OF MALICIOUS SHOOTING-CARROLL ARRESTED FOR KIDNAPING OFF RAILROAD-ESTATE OF SAMUEL P. RICHMOND.

(Correspondence of the Richmond Dispatch.)

JANUARY 18, 1877.

The quarterly term of the Hustings Court, Judge Mann, commenced to-day, but has progressed slowly on the criminal docket. Among the indictments returned by the grand jury was one against the Reuben Ragland for misdemeanor in assaulting Captain D. N. Hinton. Mr. Ragland, with his counsel, Captain John Lyon, has been in the city all day. The case will probably be tried to-morrow.

George Fells (colored), convicted of malicious shooting, was sentenced to the penitentiary for one year.

At the meeting of the directors of the Citizens Bank, held last night, Mr. James E. Cuthbert, for some years past treasurer of the Atlantic, Mississippi and Ohio railroad, was elected cashier, and Mr. Benjamin Hanson was elected assistant cashier.

With respect to the office of treasurer of the Atlantic, Mississippi and Ohio road, which will be vacated by Mr. Cuthbert, I learn that probably no one will be appointed to succeed him. The character of the office since the road has passed into the hands of receivers has very much changed, and the office will probably be abolished as not actually needed.

The pay-train of the Atlantic, Mississippi and Ohio road, in charge of Messrs. Eubank and Gregory, arrived here this evening from a Richman route for Norfolk. The employees along the entire route are being paid off for the month of December.

The sale of real estate in this city delinquent for taxes for the years 1874-75 to have commenced to-day, but after offering a few lots the further sale was postponed until Thursday. The aggregate value of the property to be sold is about \$16,000. Some interest has been aroused in the premises by a telegram from Richmond announcing the sale to be illegal on account of an amendment passed to the city charter forbidding the sale of lands that have been sold to delinquent lands than that imposed by the State, which is five per cent. additional for non-payment by December 1st; whereas the city imposes twenty per cent. on delinquents.

STATION.

DEATH-HEAVY RAIN-MILITARY-WATERWORKS, &c.

(Correspondence of the Richmond Dispatch.)

JANUARY 18, 1877.

A letter received here by the *Victor* announces the death of the venerable George Mayse, of Bath county, at the advanced age of ninety-seven years. He was for several seasons a member of the House from Bath, and was elected to the United States Senate by the present member of the House from that county, Mr. McDannald.

A heavy rain fell at yesterday evening, and some of the streams are rising. On Middle of the dam of the Cape Charles Water-works (the & Co.'s mill) have been swept away.

The Staunton mill is having a stand of colors made at home with the exception of the gold eagle which tips the flag-staff, which arrived yesterday from Richmond. This company has been notified of the fact that the water from our new water-works will be turned on permanently to-day. The engineer of the works (for which the Hamilton Brothers, of Baltimore, drew the plans) has been Mr. Donald Allen, our city engineer, and the company controlling its progress has been Messrs. A. H. Fulz, John W. Allen, and John B. Evans. One of the workers, of Worthington, N. Y., who made the engine, came on to start it.

The City Council on Tuesday night defeated a proposition to furnish the city with a new uniform. Retrenchment is the order of the day.

DANVILLE.

(Correspondence of the Richmond Dispatch.)

DANVILLE, January 17, 1877.

In reference to the article from the *Lynchburg Star* was published by the *Dispatch* on Thursday, I am glad to hear that no additional tax has been levied upon the tobacco manufacturers of this district. It appears, I am told, that some of the manufacturers have not accounted for what the Department deems a proper quantity of tobacco manufactured, but that the same arises from the fact that they have not made for stems, scraps, and other waste such deductions as they might have justly made, and that when these deductions shall have been made the manufacturers will have nothing additional to pay. It seems to be the case, also, that the Department has not this revision and corrected statement of these accounts, and this is now being done.

It is plain that in such cases there can be no ground for a charge of fraud against the manufacturers, and no such charges have been made. One trouble with the statement of these accounts has been the necessity of carrying forward to one year stock bought on a previous year, and accounting for the net proceeds of this old stock, while continual additions have been made to the stock. In fact, the clerkage is exceedingly tedious and cumbersome—at least, I am told so.

ALPHA.

GLOUCESTER COUNTY.

(Correspondence of the Richmond Dispatch.)

GLOUCESTER COUNTY, Va.,

The rivers heretofore have been so frozen that mail communications with your city have until very lately been suspended. It is said by the elders that there has not been so severe a spell of cold weather since the winter of 1856-57, just twenty years ago. York river has been several times, since the cold spell set in, frozen entirely across. Very great distress has been suffered by some of the people. A negro man was found one morning near this place frozen so that he died a few hours after he was found. The general impression seems to be he got drunk and stayed out all night; but his temperate habits and general good conduct has induced the people to believe that he was frozen. A gentleman in the lower part of the county got into ten and a half inches thick—an almost unprecedented thickness for this section.

Dr. Charles Diggs, of Mathews, committed suicide a few days ago by opening a bottle of arsenic and drinking the contents. He had been a young man of promise and popularity. Rumor attributes the deed to the too free use of opiates.

Just before our mails came over from Yorktown to hold a meeting of the negroes at Hickory Fork. About a dozen persons were there, and they heard the report that the negroes had been elected, and that they must fight to have him inaugurated.

Hymen was holding his way down here just before the cold spell. A gentleman (and by the way, an uncommon looking fellow) told me that he had been elected, and that they must fight to have him inaugurated.

(Correspondence of the Richmond Dispatch.)

JANUARY 18, 1877.

Mr. Jones, of Florida, presented the petition of William Call, Robert B. Hilton, J. E. Younger, and Robert Bullock, the Democratic presidential electors of Florida, claiming to have been legally elected, and asking that the electoral vote cast by them for President and Vice-President be counted instead of that cast by electors on the other side.

On motion of Mr. Jones the petition was laid on the table, and he gave notice that he would call it up next week for the purpose of submitting some remarks on the subject.

Mr. Edmunds, of Vermont, the chairman of the Electoral Committee, said: "I am directed, Mr. President, by the select committee raised under the resolution of the Senate on the subject of the counting of the electoral vote, to submit a report in writing, with an accompanying bill. The report is signed, I am happy to say, by all the members of both committees (it being a report in form joint and several to the two houses) with no exception, and all that I wish to say on this occasion, after stating that we shall desire to take it up at the earliest possible day, is that the time is running very fast, and we hope, indeed, Saturday (the day after to-morrow), but certainly on Monday, to press it to a determination in some form, and to give it effect."
